How To Charge

1. The Atomic Lighter™ should be fully charged before first use. Plug the micro-USB connector end of the supplied USB cable into the charging port of the Atomic Lighter™ (Figure A) to charge the battery using a USB port of a power source.

2. While charging the blue light will blink, indicating the Atomic Lighter™ is charging properly. When charging is complete the blue light will be solid. Make sure to remove the USB cable before charging the Atomic Lighter™. The charging port of the Atomic Lighter™ will not damage the power source after it has been charged. Over-charging the battery can cause a fire or decrease the battery life. When in use, a flashing blue light means the battery is low. (Figure B)

How To Use

1. Locate the ON/OFF switch positioned on the bottom of the Atomic Lighter™. Slide the switch to the ON position to unlock the lighter. (Figure C) The lighter will turn on and lock the position will lock the lighter and make it impossible to turn on.

2. Press and hold the power button to turn on the lighter. (Figure D)

Cleaning

1. Over time, some build-up will occur around the base of the Atomic Lighter™. To clean this area, use a soft small brush to clean away any dust. Make sure the lighter is in the OFF position while cleaning.

Note: Do not use any abrasive or liquid cleaners.
